TONY (DUAL CONSTRUCTION)

On behalf of my brother, Brad Moss and myself, Greg Moss we would like to thank you for the professionalism on the construction of our house.

We are extremely happy with the quality of work produced, which was done to perfection.

We are also really impressed with the cleanliness of the site during and after the building was completed and your willingness and enthusiasm to go out of your way to help us at all times is greatly appreciated. Including all the extras added to the house.

Mostly appreciated is the time period over which the house was completed.

Therefore, we would be more than willing to recommend you to anyone else or company interested in your construction company.

Thanking you for your time and skills
